Partnersing with IFC
in East Asia and the Pacific
IFC, a member of the World Bank Group, is the largest global development finance institution exclusively focused on the private sector in emerging markets.

We create opportunity and improve lives in emerging markets.

**What we do**

- Financing private sector investments
- Mobilizing capital in the international financial markets
- Providing advisory and risk mitigation services to businesses and governments

**We are global** – active in more than 100 countries.

**We are local** – with projects in more than 20 countries across *East Asia and the Pacific.*
A partnership for collaboration in Private Sector Development – in East Asia and the Pacific and around the world.

IFC is your partner of choice, offering seamlessly integrated business services: IFC Investment Services, IFC Advisory Services, and IFC Asset Management Company.

We share your goals
Supporting profitable private businesses that create opportunity for investors and for people to escape poverty and improve their lives

We understand your needs
Providing sound, well-managed global investments and advice that help turn your goals into reality

We focus on your priorities
Crafting integrated business solutions to some of the greatest developmental challenges today
Investing in Early-Stage Equity

Providing risk capital for financial institutions and private sector businesses at an early stage. As shareholders, we set standards in corporate governance, financial transparency, and environmental and social best practices. We use this experience to help governments set policies that allow the private sector to grow.
Our Products

Financing

Lending – extending all types of loans to meet client needs.

Equity – investing risk capital to help companies grow.

Mobilization – partnering with commercial banks, funds, investors, and development finance institutions to mobilize money for clients through syndications, parallel loans, trade facilitation, and other programs.

Advisory Services

We provide expert advice on key areas of private sector development integrated with our investments:

IFC Asset Management Company

An IFC subsidiary that invests capital on behalf of large institutional investors who are looking to increase their exposure to emerging markets. The funds are invested in the form of equity and debt, enabling investors to benefit from IFC’s expertise in achieving strong returns and positive development results.

Reducing the Carbon Footprint

Providing financing and advice to help improve energy efficiency or use renewable energy so that companies can grow their bottom line while preserving the environment.

Investing in Frontier Regions

Investing in less-developed countries of East Asia Pacific, such as Lao People’s Democratic Republic, Mongolia, the Pacific Islands, and poorer regions of middle-income markets. As these regions develop, we expand access to finance and provide business advice to rural and urban enterprises so that they can grow and create jobs.

Supporting Global Integration

With IFC’s global expertise in emerging markets, we help larger companies in China, Indonesia, and elsewhere expand outside of East Asia Pacific in environmentally and socially sustainable ways.
Fiscal Year 2014 Key Facts and Results in East Asia and the Pacific

IFC’s investments in East Asia and the Pacific reached a record $4.2 billion across 69 projects. Our financial markets team signed deals totaling more than $2.5 billion, our manufacturing, agribusiness and services team committed to investments of around $950 million, and our infrastructure and natural resources team made investments totaling close to $610 million.

IFC advised companies and governments on 107 private sector development projects with a portfolio volume of $193 million. We supported Myanmar in strengthening its financial infrastructure, markets and institutions to create a more robust and inclusive financial sector. IFC helped coffee farmers in Indonesia, Papua New Guinea and Vietnam increase productivity and incomes. We advised the Philippines government on conducting a public-private partnership bid to build an airport expressway. We advised mobile network operator Digicel on using solar power to increase mobile use in Papua New Guinea.

Our investment and advisory projects are expected to expand access to finance for around 4.6 million people and more than 750,000 small and medium enterprises, increase access to infrastructure for more than 1 million people, improve health and education services for 5.1 million people, reduce greenhouse gas emissions by about 780,000 metric tons per year, and support 420,000 farmers.
